

Q: Do points won on BBO count towards Life Master?

Per ACBL Board of Directors regulation:

Online points are "colorless." They are included when determining a player's category for entering events or participating in other masterpoint races. Online points do not count towards year-to-date totals for ACBL masterpoint races except for the one exclusive to online play.

Online points count fully towards rank advancement.

My notes:

This change was part of the 2010 realignment of ACBL ranks. Before then, there were limits placed on on-line points: they couldn't be more than 1/3 of the points used to obtain a specific rank. Also, this "colorless" rule does **NOT** apply to points won in the new **Support Your Club Game**: those are black, same type you'd get at the HBC.
