

Looking at Your BBO History

Q: How do I see how many points I've won on-line?

First, if you play in a Casual game, then there are no points accumulated. If you play in a non-ACBL Tournament, you get BBO points, but those don't accumulate towards your ACBL ranking. Only Tournaments with the **ACBL** label accrue towards rankings.

You can see all of your history, both deals and Tournaments, by selecting the **History** tab (all the way to right side of the screen). That will let you see both your Recent hands and Tournaments. In particular, if you click on a row in either table, you'll get more information. For a Tournament, you'll be able to see your results on each deal. For a hand, you'll see a Movie that let's see exactly how the hand was bid and played.

The screenshot shows the Bridge Base Online (BBO) interface. On the left, there are 'Privacy options' and 'Reserve seats' sections. The 'History' tab is active, displaying a table of tournament results. The table has the following columns: #, Title, Score, Ranl, Mast, and Prize. The data rows are as follows:
